## U.S. CONTAINMENT POLICY CAME IN MANY FORMS

Common Goal - *Quarantine* Communism.

1. **Economic** - "*Buy & strengthen your Friends*" by providing aid (\$) so that they can resist communism. (i.e. Poor, war-torn areas are vulnerable to communism.)
2. **Political** - "*Outnumber the Enemy*" through "collective security" agreements formed by several countries who will act as one if communism threatens any **one** of them. ("**Pactomania**")
3. **Military** - "*Overpower the Enemy*" by either threatening military action or carrying out military action in areas where communism threatens. (e.g. The arms race itself)
